

### **AUTOMATED PROVISIONING & USER LIFECYCLE MANAGEMENT GRANT OVERVIEW**

---

The Automated Provisioning & User Lifecycle Management Grant provides selected institutions an in-kind grant award up to \$250,000 over a period of five years which covers licensing, hosting, professional services and support costs associated with the implementing provisioning & user lifecycle management.

Note: The in-kind grants for software and services are underwritten by selected Campus Consortium Technology Vendors and are designed to provide a variety of solutions, products, and services to help Institutions reduce costs while implementing the vendors' technologies on campus. Interviews and technical assessment are required of all selected applicants.

*\*A limited number of grants to be awarded.*

### **AUTOMATED PROVISIONING & USER LIFECYCLE MANAGEMENT GRANT BENEFITS**

---

- Improved Security and Reduce Cost: With user provisioning and role-based permissions within the application, you get improved security. Prevent unauthorized access by automatically revoking access to all apps at once.
- Simplified User Lifecycle Management: Provision users with the right access based on role and change the access as their role changes. When access is revoked – keep, suspend or delete the application data as required.
- Enabling self-serviceability: Automated provisioning offers users a self-service portal therefore whether it is branding or adding an application or getting access rights for any apps or sending notifications the solution offers all.

### **WHO CAN APPLY & WHAT IS THE QUALIFICATION CRITERIA?**

---

- Accredited Higher Education institutions and K-12 schools are eligible to apply.
- Institutions are eligible to apply for multiple grants. Separate applications are required for each grant pursued.
- Applicants are required to demonstrate institutional purpose in the form of a “letter of intent” signed by Dean/President or member of campus leadership team. The letter should indicate the challenges the solution aims to solve and why the grant would be helpful to the institution.

*\*Previous awardees are eligible to apply.*

### **GRANT APPLICATION DATES AND DEADLINES**

---

Grant applications will be accepted until **September 27, 2019**.

Applications will be reviewed by our Grant Consideration Committee and will be followed up by an applicant interview and technical assessment conducted over a teleconference. If selected, a Grant Award Letter will be issued to the applicant institution during Educause at Chicago or by **October 18, 2019**.

*Note: Dates and deadlines are subjected to change based on the volume of applications received by the Consortium.*

### **HOW TO APPLY**

---

- Register for grant and download application form
- Print and complete the grant application form
- Submit completed grant application and letter of intent to [grantapplication@campusconsortium.org](mailto:grantapplication@campusconsortium.org)

## Automated Provisioning & User Lifecycle Management Grant

In-kind grant award up to \$250,000

Submit Completed Application and Letter of Intent by September 27, 2019

Applications	Vendor & Version	Annual Cost to Institution	Target Date to Upgrade or Replace
Student Information System (SIS)			
Recruiting/CRM System			
Financial Aid:			

**PLEASE ANSWER THE FOLLOWING QUESTIONS**

How did you hear about this grant?

Do you currently have a Provisioning & Lifecycle Management solution? If Yes, provide details of the solution you have.

Do you have a timeline for when you would need ULM live for your institution?

How are you currently provisioning directory, email and other application accounts for Students and Staff?

Please confirm that the SIS / ERP is the Source-of-Truth (Trusted Source of Valid Information).

What are the key applications to which you want to automatically provision user accounts?

Are you looking to synchronize accounts and access information between the Source-of-Truth and other target applications?

Are you providing ADsync or GoogleSync for email?

Are you looking to reconcile the validity of accounts and access information across the Source-of-Truth and other target applications?

Why do you feel your institution should be selected for this Grant?

If selected, what are your timeline for implementing this project?
