### STUDENT ENGAGEMENT MOBILE APP GRANT OVERVIEW

---

The Student Engagement Mobile App Grant provides selected institutions an in-kind grant award up to \$100,000 over a period of five years. The Grant is intended to cover the cost towards licensing, hosting, professional services, and support costs associated with the implementation of the mobile app.

Note: The in-kind grants for software and services are underwritten by selected Campus Consortium Technology Vendors and are designed to provide a variety of solutions, products, and services to help Institutions reduce costs while implementing the vendors' technologies on campus. Interviews and technical assessment are required of all selected applicants.

*\*A limited number of grants to be awarded.*

### STUDENT ENGAGEMENT MOBILE APP GRANT BENEFITS

---

Think about your target end user – your students. They can order and pay for pizza from a mobile app. They are going to expect the same instant gratification and cutting-edge technology from their college or university. The Mobile App platform provides your students a one stop shop access to their grades, course content, notification etc. or frequently used applications on the go.
